## The Fusion Series

ActiveYards® presents the Fusion Series, the newest privacy panel added to its portfolio. The Sequoia privacy fence, the first in the series, is a beautiful combination of our GlideLock® vinyl boards, patented technology design that locks pickets tightly into place without any gaps, and our durable powder coated aluminum frame infused with our exclusive SolarGuard® color retention technology, which helps protect it from the harmful rays of the sun.

The Sequoia privacy fence is a modern and sophisticated look and sure to stand out from the standard fences on the market.

Fencing solutions for life®

Sequoia offers mixed materials fencing that pairs our patented GlideLock® boards with attractive black matte aluminum frame with hidden fasteners to create a uniquely modern look.

The frame structure is designed so the GlideLock boards simply slide into the u-channels, allowing you to choose your board color as well as the direction of the boards – either horizontal or vertical – and completely customize the look of your fence. Color choices include Redwood, Birchwood and Wicker, a solid color option.

This privacy option is another great lifetime solution for your backyard.
